

Top Senior Living Awards

Congratulations!

As an honoree, your facility or company will be listed with the other honorees in a special section in the May 2024 issue of Rhode Island Monthly. This is also the Top Doctors issue of Rhode Island Monthly, our most popular and requested back-issue of the year.

We are offering attractively designed profiles that include your photo, amenities, services and contact information. These profiles provide a great marketing opportunity to showcase why you were included as a Top Senior Living honoree. Your profile will be seen by our 143,000 targeted readers who are involved in making decisions about senior living options for themselves or for aging parents. (see demographics below)

The four color, formatted profiles are available in a variety of sizes and a Rhode Island Monthly designer will assist with the design and production of your ad.

HEALTH CONCEPTS, LTD.

Congratulations to Eastgate Nursing and Rehabilitation Center, Elmwood Nursing and Rehabilitation Center, Heritage Hills Nursing and Rehabilitation Center, Morgan Health Center, Riverview Healthcare Community, South Kingstown Nursing and Rehabilitation Center and Westerly Health Center for being recognized by *Rhode Island Monthly* as Rhode Island's finest skilled nursing facilities. These five-star homes are staffed by highly trained professionals. Some people need time to recuperate after a visit to the hospital, and our teams are trained to get you home. Other people need round-the-clock nursing that just can't be done at home. Rhode Island is a small place. It's neighbor looking out for neighbor and family caring for family. When you enter any of these homes, you can feel the calm culture of competence. They are part of the Health Concepts family of skilled nursing facilities, so they have the training and support of Rhode Island's largest post-acute network. Short-term rehabilitation, long-term nursing, or secure memory care, our specialists are just a phone call away. Step in for a tour and see for yourself.
