MCCORMICK HOME IMPROVEMENT

MCCORMICK Home Improvement: Your partner in home remodeling from concept to completion. We talk a lot about partnering with our clients, but what does that look like? A recent client worked with us while living in Canada to complete a full kitchen remodel in her home here in Rhode Island. That partnership was built on trust, consistency, and lots of communication. A critical client that you consider a large asset remained on their new home after working with us to complete an in-depth remodel of their previous home. During the first project, we installed a temporary kitchen to support the family in maintaining some normalcy for their young children in the home. A current client is managing work, family, and a home remodel while her husband is out of the country. On each of these projects we are on-site every day, allowing us to adjust to the needs of our clients. We communicate regularly and are available to help brainstorm or troubleshoot. How our clients feel is just as important as how the finished project looks.
