

Hospital Guide

Residents of Rhode Island and southeastern Massachusetts are fortunate to live in a health care hub with multiple options for specialized and emergency care plus hospitals, researchers and health care professionals who implement new technologies while they work to develop next-level treatments.

This section, appearing in our January issue, will feature a summary of services, specialties, accreditations and recognitions for the hospitals in our region.

We are offering full page and 1/2 page hospital advertisers a free "Spotlight" box like the samples shown here.

The section will be designed to serve as a reference guide to our 141,000+ readers throughout the region. With a subscriber base that is 64% female and mostly aged 35+, they play a significant role in health care decisions for themselves, their families and in many cases, their aging parents.
