**FROM THE DESIGNER:** “Staircases hold a special place in our homes, carrying a cohesive design story to the rest of the house. This two-story staircase boasts three stacked windows, making a striking statement both indoors and outdoors. It also offers our clients a view of the water and abundant natural light! We thoughtfully layered texture and patterns, crafting a genuine masterpiece.”

**FROM THE CLIENT:** “The stairs may be one of my favorite features in our new home. Every detail in this house makes my heart happy.”

**FROM THE DESIGNER:** “Great rooms start with great partnerships between the designer and client. It’s a collection of ideas and trust ensuring that the execution will realize the client’s vision. For their waterfront property, our client had a coastal look to complete their living room renovation, and we knew the view was the star. Rope back chairs offer a nod and make a visual statement, while the indoor/outdoor sofa fabric will stand up to the New England summer sun. A second seating area facing the original stone fireplace offers intimate seating for two and flexibility when family. With the portable upholstered cubes and an ottoman, there is a spot for everyone. We are spoiled to work with clients and in locations with so much natural beauty. It was a pleasure from start to finish.”

**FROM THE CLIENT:** “We were familiar with Surroundings Interior Design in Mattapoisett, MA, and were pleased that they offered furniture we could see and sit in; they even offered the flexibility to customize furniture for our home. Cheryl Sheehy listened to our ideas and merged them with her own unique style to create the most beautiful and functional space we could ever imagine.”
