### Arden Builds a Strong Family Business

Arden Engineering Constructors (originally Arden Engineering Company, Inc.) was founded in 1954 by Herb Arden as a mechanical and general contracting company in Providence, Rhode Island. Nearly seventy years later, the Arden name has evolved into a multi-faceted group of geographically diverse firms that comprise Arden Building Companies — headquartered in Pawtucket, Rhode Island. Arden employs over 440 office and union craft personnel in Rhode Island, Massachusetts, Connecticut and Maine.

Arden designs, constructs and maintains essential systems for buildings of all types. Their comprehensive skill set includes virtual design and construction, engineering, mechanical, HVAC, fire protection, electrical, service and maintenance, building automation, and traffic lighting and technology. Arden uses state-of-the-art technology with 3D imaging and data analytics. Systems are designed with accuracy and precision, providing clash-free installations. Their multiple in-house pipe fabrication facilities allow modular components to be created in a controlled environment and delivered to project sites for installation. This process reduces on-site work hours, streamlines productivity and increases overall project safety.
